PROFESSIONAL SUMMARY

Full Stack Java Developer with 1.7 years of software development experience, including industry internship experience and 1.5+ years of enterprise application development for State Bank of India (SBI). Delivered 5 production-ready modules, contributed to 10+ production deployments, and received SBI Employee of the Month for contributions. Skilled in Java, Spring Boot, Oracle PL/SQL, REST APIs, Spring Security, JWT, and AWS.

TECHNICAL SKILLS

Languages: Java, JavaScript, C, C++

Frontend: React.js, HTML, CSS

Backend: Spring Boot, Spring MVC, Hibernate, JPA, Node.js

Databases: Oracle SQL, PL/SQL, PostgreSQL, MySQL

Security: Spring Security, JWT, OAuth2

Architecture: REST APIs, Microservices (learning & implementation projects)

Methodologies: Agile, SDLC

Tools: Postman, Maven

PROFESSIONAL EXPERIENCE

Full Stack Developer, Tata Consultancy Services (TCS)

September 2024 - January 2026

Loan Origination System (SBI)

Mumbai, India

- Delivered 6 production-ready banking modules using Java, Spring Boot, Spring MVC, Oracle PL/SQL, HTML/CSS and JavaScript
- Contributed to development and deployment of 10+ enterprise banking modules for SBI Loan Origination System.
- Designed secure REST APIs integrated with Core Banking Systems (CBS).
- Contributed in 10+ production deployments including validation, production monitoring, issue resolution and post-deployment verification.
- Implemented Spring Security, JWT authentication and optimized Oracle PL/SQL queries.
- Worked on State Bank of India's Loan Origination System (LOS), supporting loan application, verification, appraisal, and approval workflows.
- Built and maintained 25+ UI components using HTML, CSS, JavaScript.
- Contributed in requirement analysis, development, testing, deployment, and production support in Agile environments.

Data Science Intern, Gustovalley Technovations

July 2023 - September 2023

- Worked on Python, SQL, Excel, and data analysis fundamentals through structured industry training.
 - Performed hands-on coding exercises to strengthen database querying and analytical problem-solving skills.
 - Gained practical exposure to data preprocessing, exploratory data analysis (EDA), and software development workflows
-

PROJECT

EcommerceHub – Full-Stack E-commerce Application (Self-Developed Project)(Backend Completed)

- Technologies: Java, Spring Boot, React, PostgreSQL, JPA/Hibernate, AWS
- Spring Boot Backend: Designed and developed a complete e-commerce platform with customer, admin, and seller modules. Implemented Spring Security with JWT authentication, role-based access control, and RESTful APIs for product, order, and user management.
- Database & Deployment: Architected a PostgreSQL schema with JPA/Hibernate, implemented pagination, sorting, and validations, and deployed the application on AWS with production-ready configurations and comprehensive API documentation.

Personal Developer Portfolio

- Tech Stack: React.js, TypeScript, Vite, HTML5, CSS3, GSAP, GitHub, Vercel
 - Designed and developed a responsive personal portfolio website using React, TypeScript, and Vite.
 - Showcased professional experience, technical skills, and software projects through a clean, modern user interface.
 - Implemented smooth UI animations and responsive layouts to ensure a seamless experience across desktop and mobile devices.
 - Integrated GitHub, LinkedIn, resume download, and contact information for improved accessibility and professional networking.
 - Deployed the application on Vercel with GitHub-based version control for continuous updates.
